-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on 12/16/04.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 14-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 14, lines 8-9, “the locking hinge adjustable between at least two configurations” is unclear and not fully understood. Perhaps this should read –the locking hinge being adjustable between at least two configurations--, for clarity. In addition, it is not clear in the context of the claim language exactly what structure constitutes these limitations.

In claim 17, second hinge is not understood is not understood in the context of the claims and drawings. It is not clear what hinge is being referred to.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 14, 15, and 17-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Wenger, US Patent 3,143,185. A foldable ladder configured for installation in an opening to provide access between one floor or space and another floor or space, comprising an upper ladder section having at least one rail; a lower ladder section having at least one rail; a locking hinge 37 connecting the rail of the upper ladder section to the rail of the upper ladder section and configured to allow the lower ladder section to fold relative to the upper ladder section, wherein when the upper ladder section and the lower ladder section are fully unfolded, the locking hinge adjustable between at least two configurations, in a first configuration, the locking hinge completely preventing the lower ladder section from folding relative to the upper ladder section, and in a second configuration, the locking hinge allowing the lower ladder section to fold relative to the upper ladder section. A total length of the foldable ladder is approximately equal to or greater than a length of the upper section plus a length of the lower section, as claimed.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 15 is rejected under 35 U.S.C. 103(a) as being unpatentable over Wenger in view of Gould et al., US Patent 4,823,912. Wenger does not explicitly teach the claimed bracket member. Gould teaches such a bracket member for the purpose of providing additional means for securing a ladder. It would have been obvious at the time the invention was made for one skilled in the art to have modified the device in this way, for the purpose providing additional securing means.

Response to Arguments

7. Applicant's arguments with respect to claims 14-22 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
